EXPERIENCE

July 2022 - PRESENT

SAP, *Software Developer*

- Developing efficient and scalable **cloud-native** applications which follow a microservice approach using **Java** and **Spring Boot**, while also creating the necessary unit tests to ensure satisfactory code coverage.
- Applying agile concepts while implementing **CI/CD pipelines** using **Jenkins** for seamless integration and deployment processes on the **SAP BTP Cloud Foundry** environment.
- Demonstrating a customer-first mindset by understanding customer processes and implementing specific customer-facing product features using **JavaScript** and **Fiori UI5**.

January 2020 - July 2022

Employment and Social Development Canada, *Software Developer*

- Applied agile principles while implementing and modernizing programs within the department using **Java** and **Spring Boot** such that they follow a microservices approach.
- Configured, managed, and exposed various **SOAP** and **REST APIs** in **Microsoft Azure** to provide consistent API gateways which access backend services.
- Developed and debugged messaging routes using **Apache Camel** and **Kafka**, while also creating the necessary unit tests to ensure satisfactory code coverage.

EDUCATION

September 2016 - June 2021

Carleton University, *Honours BSC Computer Science*

Graduated with a 9.67 CGPA from the Management and Business Systems Stream with a Minor in Business.

PERSONAL PROJECTS

Interval Timer Mobile App, *Flutter*

GitHub Repo: www.github.com/sabinabialic/interval_timer

Designed and developed a fully customizable interval training timer for iOS and Android devices using Flutter and Dart.
